

# AFTER SEDATION INSTRUCTIONS

1. Patient cannot drive for 24 hours after sedation
2. Do not operate any hazardous devices for 24 hours.
3. A responsible person should be with the patient until he/she has fully recovered from the effects of the sedation.
4. Patient should not go up and down stairs unattended. Let the patient stay on the ground floor until recovered.
5. Having nutrition after sedation is important. The patient should begin eating appropriate food as soon as possible. Do not delay.
6. Patient needs to drink plenty of fluids as soon-as possible.
7. Patient may sleep for a long time or may be alert when he/she leaves. Attend to both alert or sleepy patient in the same manner; don't trust him/her alone.
8. Always hold patient's arm when walking.
9. Call us if you have any questions or difficulties. If you feel that your symptoms warrant a physician and you are unable to reach us, go to the closest emergency room immediately.
10. Patient should not carry, sleep next to or be left alone with the elderly or young children for a period of no less than 24 hours after the last dosage of Medication.

The best medication for the patient's pain has been included with your take-home recovery kit.

Please have the patient take 800mg Advil (4 pills) 3 times a day for 3-5 days unless restricted by your physician.

If the doctor was concerned about additional post-operative pain or infection, a prescription for another medication has been included.
